The Society for Immunotherapy of Cancer (SITC) is a non-profit medical professional society of influential scientists, academicians, researchers, clinicians, government representatives, and industry leaders from around the world dedicated to improving cancer patient outcomes by advancing the science and application of cancer immunotherapy. Currently, SITC has more than 600 members representing 17 medical specialties and are engaged in research and treatment of at least a dozen types of cancer.

Through emphasis on high-caliber scientific meetings, dedication to education and outreach activities, focus on initiatives of major importance to the field, and commitment to collaborations with likeminded organizations and patient advocacy groups, SITC brings together all aspects of the cancer immunology and immunotherapy community in an effort to make cancer immunotherapy one of the four standards of care and the word "cure" a reality for cancer patients living with this disease.

# Journal for ImmunoTherapy of Cancer

### **ABOUT THE JOURNAL**

The Journal for Immuno Therapy of Cancer (JITC) is the official journal of the Society for Immunotherapy of Cancer (SITC). It is an online, open access, peer-reviewed journal focused on both basic tumor immunology and clinical/translational cancer immunotherapy. JITC provides rapid dissemination of cutting edge science information by authors from around the world. In addition, published articles are highlighted to SITC's stakeholders of more than 5,000 experts in the field.

Through the development of our 2012-2015 Strategic Plan, it was clear that there was a need for an outlet and targeted publication platform dedicated to advancing the science of tumor immunology and cancer immunotherapy. The Society is thus responding to the tremendous excitement in the field and the increased momentum brought about by the latest approvals of immunotherapy-based treatments in various cancer types.

### FREE PUBLICATION FOR SOCIETY MEMBERS

As a way to say thank you to the dedicated Society members who tirelessly work to advance the science and ultimately improve the lives of patients with cancer, SITC is pleased to offer Society members waived article processing charges for manuscripts accepted before the end of 2013.

# JITC EDITORIAL BOARD

The Editorial Board is comprised of internationally recognized thought leaders in the field and experts in their content areas. They are also members of SITC and deeply committed to advancing the knowledge about, and integration of, cancer immunotherapy research into the clinical setting.
