

INVITATION TO ATTEND THE SITC PRIMER ON TUMOR IMMUNOLOGY AND CANCER IMMUNOTHERAPY™ FROM BIOLOGY TO TREATMENT

June 1, 2012 • 8:00am-1:00pm • Hyatt Regency McCormick Place • Chicago, IL

Society for Immunotherapy of Cancer

Are you going to the **2012 ASCO Annual Meeting?** Registration is now open for the SITC Primer on Tumor Immunology and Cancer Immunotherapy™ From Biology to Treatment.

Topics:

- Basic Immunology (including Cytokines)
- Host Tumor Relationship
- Tumor Antigens and Cancer Vaccines
- Co-inhibition and Co-stimulation
- Adoptive Immunotherapy with T Cells
- Antibody Based Immunotherapy

Organizers:

- Walter J. Urba, MD, PhD - *Earle A. Chiles Research Institute*
- Kim A. Margolin, MD - *Seattle Cancer Care Alliance*

**Separate registration is required as this is not an official event of the 2012 ASCO Annual Meeting. This event is not sponsored or endorsed by ASCO or the Conquer Cancer Foundation.*

SITC Primer on Tumor Immunology and Cancer Immunotherapy™ From Biology to Treatment

Society for Immunotherapy of Cancer
555 East Wells Street, Suite 1100
Milwaukee, WI 53202-3823 USA

PAID
PERMIT XXXXX
MILWAUKEE, WI

June 1, 2012 • 8:00am-1:00pm
Hyatt Regency McCormick Place • Chicago, IL

Why YOU should be there:

- Learn basic to advanced immunology principles relevant to the immunobiology and therapy of cancer
- Update your knowledge of innate immunity, dendritic cells, T cell subsets and functions, and the tumor microenvironment
- Hear the latest advances in tumor antigens and vaccination, checkpoint blockade, co-stimulation and adoptive immunotherapy
- Network with peers and leaders to promote collaboration and scientific exchange
