

Society for Immunotherapy of Cancer

30TH ANNIVERSARY
AWARD CEREMONY

The Society for Immunotherapy of Cancer's 30th Anniversary Award Ceremony celebrates the achievements of current and future leaders in the cancer immunotherapy field.

The work of these dedicated individuals that include young investigators, luminaries, leading organizations, regulatory agencies and industry seeks to propel the field forward and build a solid foundation for future advances and soon, a cure.

Milestones & Momentum 30th Anniversary Reception

Smithsonian National Air and Space Museum

Saturday, November 7, 7 – 10 p.m.

Immediately following the 30th Anniversary Award Ceremony, Annual Meeting attendees and guests are invited to celebrate milestones in cancer immunotherapy at the Smithsonian National Air and Space Museum.

Shuttle service will be provided from the Gaylord National Hotel & Convention Center. Get your shuttle ticket from SITC staff as you exit the Award Ceremony, as **a ticket is required for boarding**. Return shuttle service to the Gaylord National Hotel & Convention Center will also be provided.

30TH ANNIVERSARY AWARD CEREMONY

Saturday, November 7, 2015 • Maryland Ballroom • 5:45 – 6:30 p.m.

Welcome

Howard L. Kaufman, MD, FACS
SITC President

Presentation of Awards

2015 International Scholars

2015 INTERNATIONAL SCHOLARS

The World Immunotherapy Council—a collaborative group of more than 20 organizations from the U.S. and abroad with a shared interest in promoting research and translation of cancer immunotherapy—selected the young investigators pictured below to present during the *International Symposium on Cancer Immunotherapy: Featuring Today's Innovators, Tomorrow's Leaders*, part of SITC's 30th Anniversary Annual Meeting & Associated Programs.

Chosen for exemplary work in the field, these scholars contributed insights and perspectives into future issues, challenges and improvements as cancer immunotherapy is integrated into mainstream cancer treatment.

2015 SITC ABSTRACT TRAVEL AWARDS

Created in 2007, the Abstract Travel Award highlights promising young investigators who submitted high-scoring abstracts to the SITC Annual Meeting, based on the quality of their research and potential to advance the field. In 2015, 30 young investigators will receive travel awards in the abstract travel and presidential categories combined—30 awards for 30 years!

2015 SITC PRESIDENTIAL AWARDS

Presidential Travel Awards

Presidential Travel Award recipients' abstracts were the top scoring among those submitted for the Annual Meeting by young investigators, based on quality of research, excellence in results and methods, and the potential of their work to advance the field. Of the four recipients pictured below, one will be selected to receive the SITC Presidential Award.

Amir A. Al-Khami, PhD

Presidential Award

Established in 1991, the SITC Presidential Award is the most prestigious Young Investigator Award and recognizes the young investigator deemed to have the most outstanding oral abstract presentation among those delivered in the Presidential Session of the SITC Annual Meeting.

2015 JOURNAL FOR IMMUNOTHERAPY OF CANCER BEST PAPER AWARDS

The JITC Best Paper Awards celebrate excellence in scientific research and are awarded to researchers demonstrating leadership in the field as well as innovation and high-quality execution and discussion in their manuscripts. Papers published in the last 12 months authored by SITC members were eligible for nomination for this award.

Best Clinical/Translational Paper

Papers in this category present clinical research that has a clear potential to optimize patient care, with particular emphasis on high quality randomized controlled trials, novel combination treatments, therapies, novel diagnostic or prognostic insights and new insights into mechanism of action.

Presented to First Author
Saskia Santegoets, PhD
VU University Medical
Center, Cancer Center
Amsterdam

“Myeloid derived suppressor and dendritic cell subsets are related to clinical outcome in prostate cancer patients treated with prostate GVAX and ipilimumab”

Saskia Santegoets, Anita Stam, Sinéad M Loughheed, Helen Gall, Karin Jooss, Natalie Sacks, Kristen Hege, Israel Lowy, Rik J Scheper, Winald R Gerritsen, Alfons van den Eertwegh, Tanja D de Gruijl
Journal for Immunotherapy of Cancer 2014, 2:31 (16 September 2014)

Best Basic Science Paper

Articles nominated in this category present innovative research in basic medical sciences that has a direct relevance to future research in clinical medicine.

Presented to First Author
Weiqing Jing, MD
Medical College of Wisconsin

“Combined immune checkpoint protein blockade and low dose whole body irradiation as immunotherapy for myeloma”

Weiqing Jing, Jill A Gershan, James Weber, Dominique Tlomak, Laura McOlash, Catherine Sabatos-Peyton, Bryon D Johnson
Journal for Immunotherapy of Cancer 2015, 3:2 (20 January 2015)

2015 SITC-MERCK CANCER IMMUNOTHERAPY CLINICAL FELLOWSHIP AWARD

The SITC-Merck Cancer Immunotherapy Clinical Fellowship Award supports the development of the next generation of immunotherapy experts through dedicated funding of novel research. It is provided by SITC's *ForwardFund* and supported by an independent educational grant from Merck (known as MSD outside the U.S. and Canada). This year's recipient is being recognized for his research project titled:

“Evaluation of the effect of microbiota on graft-versus-tumor activity in hematological malignancies”

Jonathan Peled, MD, PhD
Memorial Sloan Kettering Cancer Center

2015 SITC-MRA PILOT AWARD

Developed in collaboration with the Melanoma Research Alliance (MRA), the SITC-MRA Pilot Award seeks to support research of a young investigator that shows strong potential of leading to high impact, near-term clinical application in melanoma detection, prevention, diagnosis, staging, or treatment.

The award is provided to an investigator who is past the initial four years of their first academic faculty appointment to conduct potentially transformative pilot studies in the area of immunotherapy. The recipient of this year's award is being recognized for his winning research project titled:

“A novel mechanism of melanoma immunotherapy resistance”

Bin Zhang, MD, PhD
Feinberg School of Medicine
Robert H. Lurie Comprehensive Cancer Center
at Northwestern University

2015 RICHARD V. SMALLEY, MD MEMORIAL AWARD

Established in 2005, the Richard V. Smalley, MD Memorial Award is presented each year to a luminary in the field that has significantly contributed to the advancement of cancer immunotherapy research. The award serves to honor those that have been pioneers in their work and made a notable impact worthy of high regard and recognition by their peers. Named in memory of former Society President and SITC charter member, Richard V. Smalley, MD, this is the Society's most prestigious award.

SITC is proud to recognize Tasuku Honjo, MD, PhD of the Kyoto University Graduate School of Medicine as the 2015 Richard V. Smalley, MD Memorial Award recipient.

About Professor Honjo

Instrumental in the discovery of PD-1 and its role in regulating T cell response, Tasuku Honjo, MD, PhD is a major leader in the immunotherapy field. His work has helped define the immunologic role of PD-1 in diseases and also helped identify PD-1 as a target for cancer immunotherapy drug development. Professor Honjo's research has also included major contributions to our understanding of immunoglobulin class switching. In 1978, he developed a model of how antibody gene rearrangement during class switching occurred and went on to verify the model by elucidating the DNA structure. He also discovered the molecular structures and functions of IL-4 and IL-5, cytokines involved in class switching. More recently, Professor Honjo identified activation-induced cytidine deaminase (AID) as playing an important role in class switching recombination and somatic hypermutation. He currently serves as Professor and Chairman of the Department of Medical Chemistry at Kyoto University Graduate School of Medicine.

Tasuku Honjo,
MD, PhD
*Kyoto University
Graduate School of
Medicine*

Honors & Affiliations

Professor Honjo has received many awards and honors, including the Imperial Prize of the Japan Academy (1996), Robert Koch Prize (2012), the Order of Culture (2013) and Tang Prize (2014). He is a member of the Japan Academy, German Academy of Natural Scientists Leopoldina and was elected as a foreign associate member of the National Academy of Sciences USA in 2001.

2015 SPIRIT AWARDS

These nominated awards recognize a group and individual who have continuously demonstrated passion for the field of cancer immunotherapy, as well as for SITC. Recipients of this award stand out as both team-players for the cause and culture creators for the Society.

Group

The CheckPoints *SITC's House Band*

James P. Allison, PhD

2015 COLLABORATOR AWARDS

These nominated awards recognize partners from government, industry and organizations who have made great strides in cancer immunotherapy and have forged meaningful relationships with SITC in a joint effort to propel the field forward.

Government

U.S. Food and Drug Administration
Accepting on Behalf of the U.S. FDA:
Raj Puri, MD, PhD; Director of the Division of Cell and Gene Therapy

National Cancer Institute (NCI)
Accepting on Behalf of the NCI:
William D. Merritt, PhD; Program Director

Industry

Merck
Accepting on Behalf of Merck:
Roger D. Dansey, MD; Senior Vice President,
Clinical Research Oncology, Merck Research
Laboratories

Bristol-Myers Squibb
Accepting on Behalf of Bristol-Myers Squibb:
Michael F. Giordano, MD; Senior Vice President,
Head of Development Oncology

Organizations

Chinese Society of Clinical Oncology
(CSCO)
Accepting on Behalf of CSCO:
Yi-Long Wu, MD; President

Cancer Immunotherapy Trials Network
(CITN)
Accepting on Behalf of the CITN:
Martin "Mac" Cheever, MD; Principal
Investigator of the CITN

2015 OUTSTANDING MEMBER/VOLUNTEER AWARDS

This nominated award recognizes Society members who have advanced the mission of SITC through volunteer outreach activities and committee appointments. The following recipients have tirelessly volunteered their time to serve on one or more SITC committees consistently over the past five years.

Rachel Humphrey, MD
CytomX Therapeutics

Thomas F. Gajewski, MD, PhD
University of Chicago

2015 VISIONARY/LEGACY AWARDS

This nominated award honors SITC members who are visionaries and continue to show extraordinary ingenuity with continuous contributions in support of advancing the mission of the Society.

Recipients of this award have helped strengthen SITC's role in advancing the science and application of cancer immunotherapy, and have demonstrated their dedication to the Society and to the field with a distinguished record of service in leadership and/or committee roles. They are leaders whose counsel others seek and who selflessly give their time and talent. They have been forward thinking during course-changing events, and their engagement has reflected a pivotal influence on the direction of the Society.
